

IMAG supports exhibition area of EU PVSEC

Munich, March 24, 2020 – IMAG will support, in future, the exhibition area accompanying EU PVSEC, the largest international Conference for Photovoltaic research, technologies and applications. At this event, the global photovoltaic community gathers each year to network, discuss the latest developments of the industry and conduct business. In 2020, the event will take place in Lisbon at the CCL Lisbon Congress Centre from September 7 to 11. With its worldwide network, IMAG will be responsible for the distribution of exhibition space and the organization of the exhibition.

Peter Bergleiter, Managing Director at IMAG: “We are very much looking forward to collaborating with the renowned EU PVSEC and to extending our involvement within the booming future market of renewable energies.”

Peter Helm, Managing Director of the trade fair organizer WIP: “We are pleased that in IMAG we found a powerful partner with an international network that adds to our scientific conference a high-quality exhibition area.”

About EU PVSEC

The EU PVSEC is the largest international Conference for Photovoltaic research, technologies and applications, and at the same time a top international PV industry exhibition, where representatives of the PV industry present specialized technologies, innovations and new concepts of the upstream PV sector. It gathers the global PV community to conduct business, to network and to present and discuss the latest developments and innovations in Photovoltaics. It is the world’s renowned science-to-science, business-to-business and science-to-industry platform with a full and only focus on the global PV Solar sector.
