Auto Shanghai ended successfully

For eight days, the international automobile world presented its innovations at the world's largest automobile fair, the Auto Shanghai. In addition the major manufacturers, the most important suppliers to the industry were also represented. Three of the 13 clover-shaped exhibition halls used were exclusively reserved for them. In the halls 4.2, 5.2 and 6.2 of the National Exhibition and Convention Center (NECC) in Shanghai, the automotive suppliers presented their latest products to around 1.01 million visitors from all over the world. IMAG GmbH in Munich has been the European co-organizer of the fair since 2003 and is bringing suppliers from all over Europe to the show.
