MAIN CATEGORIES OF VISITORS MEETS BY EXHIBITORS ON MICA 2017

1st Forum on Infrastructure in Public Works and Transport

● The sector's equipment budget amounted to 380.76 billion DA in 2018, against 62.69 billion DA in 2017, which means an increase of 507%.

● A package of 65 billion DA is earmarked for the maintenance of 500 km of national roads, the East-West highway as well as the maintenance of ports and airports, the reinforcement of metal bridges and the rehabilitation of the railway line.

● On the other hand, a package of 28 billion DA has been released to launch projects in remote areas in the north and south of the country in addition to strengthening projects aimed at widening and rehabilitating of roads.

● A budget of 6.5 billion DA has been allocated to the implementation of the second phase of the road traffic regulation system in Algiers, in addition to a budget of 178.15 billion provided for the reassessment of the program under way.
