Website	www.imag.de/architect

Why Thailand?

- Thailand is the second-largest economy in Southeast Asia on the threshold to a high-income country. Furthermore, it serves as gateway into to the ASEAN countries.
 - Growth is driven by investment into new infrastructure, and increasing domestic demand is driving the expansion in construction of buildings across the residential and non-residential sectors.
- **Attractive conditions for companies of the building industry!**

Bangkok - Hotspot of Thailand's construction industry

Who will participate in architect expo?

Exhibitors showing products like: **windows, doors, building materials, sanitary ware, electrical appliances, finishes, and decoration.**

Visitors: Potential buyers and partners from different fields like **architecture, hotel and hospitality, retail, real estate, education, government, and municipal corporations.**

In the past these decision-makers were **real estate developers, investors, architects and interior designers, engineers, contractors, hotel and resort owners, government officers, etc.**

Among 400 companies these brands have registered yet:

With the concept “**LIVING GREEN**”, in 2019 the organisers want to put the focus on eco-friendly architecture. New technologies are needed to react to today's challenges like global warming and waste issues.

An interesting option for companies, who are active in this field.
