Your key to the Algerian transport & logistics market

The Algerian Government has mobilized for the benefit of the transport and public works sector since 1999 financial resources which have reached a total of more than 9000 billion dinars (about 90 billion dollars). This sector has been classified as one of Algeria's "strategic options" to contribute to the development of the national economy.

- Display your **know-how and innovations** within a genuine platform for exchange.
- Establish **long-lasting partnerships** with Algerian and international operators.
- Participate in an **international congress** around the theme of supply chain

TSL EXPO offers excellent opportunities

The exhibition will cover these categories:

- Logistics providers
- Logistics, telematics and e-business (communication and information systems, control systems and computer facilities, integrated transport operations management systems).
- Packaging-Conditioning & pallet
- Flow of materials (packaging for transport, load security, storage, handling and distribution facilities, loading bays and terminals facilities)
- Transport of goods, cargo systems (road vehicles, vehicles for rail transport, combined transport systems).
- Security & safety protection
