## Your key to the Algerian mining market

Algeria's Mining and Quarry sector obtains annual growth. Therefore, it is considered as a key industry for the country's economy within Algeria's plan for diversification.

For three days, decision-makers meet manufacturers and service providers from the mining sector at MICA. The accompanying forum gives all participants the opportunity to discuss current issues in the industry.

- Display your **know-how and innovations** within a genuine platform for exchange.
- Establish **long-lasting partnerships** with Algerian and international operators.
- Participate in a **technical conference program** conducted by experts.

## MICA offers excellent opportunities

### The exhibition will cover these categories:

- Bulk Materials Handling
- Exploration
- Surface and Underground Mining
- Facilities for waste recycling and recovery
- Sites and soils
- Greenhouse gas emissions control
- Equipment for maintenance of health, safety and Environment

### Topics of the 4<sup>th</sup> Forum on Mines and Quarries:

- Presentation of the mining sector in Algeria
- Mining context and investment climate in Algeria
- Mining Risk Management and the Environment
