Review on a successful presentation to the Algerian market

Symbiose-Communication-Environnement organized the 6th edition of the International Transports, Logistics and Mobility Exhibition "ALGERIA INFRASTRUCTURE 2019" in partnership with IMAG, and under the sponsorship of the Minister of Public Works and Transport.

This event brought together decision-makers and operators of the sector to support and encourage the development of the transport and logistics industry. More than 80 exhibitors and 3.000 professional visitors attended the three-day event on an exhibition area of about 3.500 sqm.

The 2019 edition hosted also the 1st International Forum on Infrastructure in Public Works and Transport.

The major topics of this conference were among others:

- A new dynamic for guided transport: the revival of the national rail industry
- The safety technique on and around railway tracks
- How to digitize your supply chain?
- Port infrastructure strategic planning
- Port dynamism and role in the economy
- Building today the infrastructure of tomorrow

ALGERIA INFRASTRUCTURE provided an extensive and diversified supply offer, including a wide range of technologies suited to investments in Algeria: operators, managers and service providers in the various fields of transport and logistics.

The next edition of ALGERIA INFRASTRUCTURE will take place from 26 - 28 January 2021 under the name TSL EXPO 2021 - International Congress and Exhibition of Transports, Supply Chain & Logistics
